Subject: Thank you!

Hi Bob,

Thank you for taking the time to meet with representatives of the Bristol Bay Native Association, Bristol Bay Native Corporation, and Trout Unlimited yesterday afternoon. As we mentioned, we are very appreciative of all the work the Agency is doing for Bristol Bay and its residents. I especially want to acknowledge Don Maddox's assistance yesterday with getting Mr. Andersen to his White House meeting on time by escorting him out of the building and to a cab. Mr. Andersen was very appreciative and had a successful meeting.

We will continue to work to support the Agency's efforts by providing technical information, where possible and appropriate, and through our continued outreach to local, state, and federal stakeholders. We will also continue to keep you apprised of our efforts. Thanks again and have a great weekend. All my best,

Wayne Nastri
